The constant hunt for better coffee

Most of these families were in a continual search for coffee that would satisfy them perfectly. During their quest, one by one they happened to try Golden Sun Coffee. They stopped there and looked no more—here was coffee satisfaction at last.

Then what happened?

Did they say at the end of a month or two, "This coffee doesn't taste as good as it used to, let's try another," as they had so often done before?

No, they didn't. For Golden Sun Coffee is always the same, always fresh, always uniform in blend and roasting year after year.

The Most Wonderful Endorsement Ever Given Any Product

John Philip Sousa and his famous Band have circled the globe on numerous tours and inspired millions of people in many lands with their soul-stirring, inimitable music.

Mr. Sousa has been a smoker of Tuxedo Tobacco for years. Recently, at the Panama-Pacific Exposition, a newspaper representative made the discovery that every member of Sousa's Band is also

Whereupon, the following endorsement of Tuxedo was gladly given and signed by Mr. Sousa and the sixty-six members of his Band. Read it—as sure-fire and convincing as a Sousa March:

No other product has ever received such a remarkable endorsement as this.

The incomparable mildness of Tuxedo appeals to men with nerves-the fact that Tuxedo does not affect their throats or nerves. And the reason is the "Tuxedo Process", that makes Tuxedo different from all other tobaccos -- positively non-biting, delightfully soothing, restril and refreshing.

Tuxedo will appeal to you for the same reasons. Much at a Sousa quick-step to the nearest tobacco dealer and get a tin of Tuxedo today. Smoke pipeful after pipeful all day long, every day, for a week. Then you'll know you've found the one cheer-up-andspeed-up-without-a-let-up smoke for happy, hustling Americans TUXEDO.

You can buy Tuxedo everywhere. Convenient, glassine wrapped, moisture-proof pouch, 5c. Famous Green Tin with gold lettering, curved to fit pocket, 10c. In Tin Humidors 40c and 80c. In Glass Humidors 50c and 90c.

The drugging of Millbrook park lake for the missing hat of Miss Estella Hosey appears to have been abandoned, at least for the present, but Prosecutor Jos. T. Micklethwait indicated Friday that steps might be taken later towards having the lake ar at least the "dead arm" where the body was found, drained.

See no occupied with court mathers to see a coupling to the form any opinion regarding the first have persons closely following the case raise the point that the thorough search that has been adoubt as to the pack removed all doubt as to the hat being any-where on the surface inside the smitsement place unless it was se-

Street railway officials said Friday that it was now up to the authorities if the lake was to be dragged any more, they saying that if the authorities desired the

services of Henry Koger, the park custodium, it would be satisfactory to them. To drain the big lake would necessitate a shut down of the Whitaker-Glessner steel plant and street railway power house and street railway power house both of which depend upon it for a water supply, it serving as a reservoir for the former plant, but the arm of the lake where the body of the girl was found could be drained separately without much interference, say company officials

Coroner Dr. J. W. Dachler when asked his opinion Friday thought it would be hard to tell just what the failure to find the out that the girl might have re-moved her hat and that it was was read to him by the Times, blown away. Body Could Not Have

Come Through Sower

The Rhades avenue storm sewer, which empties into arm of the lake where Miss Hosey's body was found, is large enough for a body to float through but Marshal W. I. Davis, of New Boston, says that DAN'S, of New Boston, says that at no time since the girl's disap-pearance has there been sufficient water in the sever to float a body. The presence of the sewer there also disproves claims heard soon after the girl's body was found that she was most probably thrown into the big lake and that her body floated around into the arm. The sewer water flow would have a tendency to drive the body [away from the sewer instead causing it to float towards it. Letter Finder Is a

Save Your Credit By Paying Up! A Good Rating is Assured For You if You Clear Up Your Merchandising Accounts This Week

The Business Men's Credit Association Rating Book will be issued within a short time. This book will act as a guide and counsel to the business and professional men of Portsmouth and vicinity in the matter of extending or refusing credit. ____ There Are Three Ratings--Either You Will Be Listed as ≡

"PROMPT PAY," "SLOW PAY" CREDIT NOT RECOMMENDE

All over the United States the week of February 21 to 26, is known as PAY UP WEEK

The Business Men's Credit Association of Portsmouth expects to have a legitimate line on "Who's Who" so far as the extension or refusal of credit is concerned by the end of the present week. If you have neglected to pay your bills, the chance to do so and retain the confidenc of the local mercantile world is yours. All you have to do is PAY YOUR ACCOUNTS BEFORE SATURDAY NIGHT. If you have a clean slate by that time, then your name will go down in the credit rating book marked in such a way that the members of the Business Men's Credit Association will extend you credit.

IF YOU PAY WHAT YOU OWE, THEN THOSE WHOM YOU OWE CAN PAY THOSE WHOM THEY OWE!

It's a simple business proposition. When credit was extended the merchant went on the theory that those to whom credit was given were absolutely reliable. The merchant had confidence. Probably you who are reading this were favored with credit, and probably you have overlooked the fact that you have not redeemed the confidence by paying the account. Make arrangements to PAY UP THIS WEEK. Re-establish your credit-make good your promises. HELP THOSE WHO HELPED YOU, and then there'll be general rejoicing all around. THE AUTOMOBILE TAGS

The trouble over automobile license tags is this--it was provided by the last legislature that tags should be bought by competitive bidding. It has been freely charged that Secretary of state Hildebrant paid no heed to this statute, but handed the contract over to Senator Wickline, of Akron, who got it under cover of an Akron firm of which his brother was an official. The Akron firm was not equipped to make the tags and the contract was sublet to a New York firm upon terms by which Senator Wickline stood to make \$12,000 by the deal. When the bill for the New York concern came up for payment State Auditor Donshey refused to pay it unless evidence were submitted to him by Secretary Hildebrant that the bid was let by competitive bidding, as ordered by law. Hildebrant has not, or else cannot, present such evidence, and so the bill is unpaid and thousands of automobile owners cannot get their licenses as no more tags are

If this contract, or any other contract for public work is let out privately and without bids being submitted, it is a bad business. Competition is the surest way to get efficient and honest public service and officials should be eager to avail themselves of it, rather than seek to hand out jobs to personal friends.

DAMAGED GOODS

Colonel Sibley has been hearing about the picture play, "Damaged Goods", and in his anxiety to ascertain just how the phrase originated, and what it means, he has gone back to the fountain head of authority. He took up Smollett's translation of Le Sage's "Adventures of Gil Blas, of Santillane", and therein he came across this paragraph;

ecross this paragraph:

"Thus sat we at table till our masters were pleased to get up from it. This was at midnight; an outrageous instance of so briety, in the apinion of my colleagues. To be sure, these noble lords left the tavern so early only to visit a celebrated wanton, lodging in the purileus of the court, and keeping open house night and day for the rotaries of pleasure. She was a waman from five and thirty to forty, still in the height of her charms, entertaining in her discourse, and so perfect a mistress in the art of pleasure, that she sold the waste and refuse of her hearty at a higher price than the first sample of the mandulterated article. She had always two or three other pieces of DAMAGED GOODS in the house."

However, as Colonel Sibley, observes, the meaning attached to Damaged Goods in the picture play is somewhat different, a little broader as it were, from that advanced by the dashing and observing Gil Blas. He applied it to those of easy virtue, while in the play it includes not only that class but is extended and broadened to include diseases that follow in the wake of those who tread the primrose paths of immorality and fast living.

In Sage wrote his immortal book nearly 200 years ago and it but illustrates the saying that there is nothing new in the world to see the phrase that he coined being used today as the title of one of the most discussed picture plays ever filmed,

Well, well, and look who's here. It's no other than our old friend Lieutenant Governor "Jack" Arnold. And what is "Jack" doing? Why he is making heap big war medicine to be used upon one Frank B. Willis at the presidential primaries. For "Jack was the main cheese at the gathering of dissatisfied republicans at Columbus Thursday when a delegate state was fixed up to oppose the one agreed upon by leaders some time ago. One thing certain is, and that is "Jack" knows who ought to be governor of Ohio. And he could tell with one guess.

Charlie Chaplin is not quite so much the vogue in the movie world as he was a few short weeks ago, but that fact apparently has not yet reached his understanding as he is down to New York trying to land a job with a movie concern for \$100,000 bonus and a guarantee of \$10,000 a week. Charlie basn't gotten that job yet and movie men say it will be a long, long, time before he does at that figure.

Washington, Feb. 25 .-- 'I think the chances are that Germany will postpone its threatened performances until April 1 or at least until the middle of March," said Speaker Clark today, after his conference with President Wilson.

Speaker Clark told the president that if a resolution of warning such as the president opposes were forced to a vote in the house now it would pass by a majority of two to one.

THE AUTOMOBILE TAGS

The trouble over automobile license tags is this it was provided by the last legislature that tags should be bought by competitive bidding. It has been freely charged that Secretary of state Hildebrant paid no heed to this statute, but handed the contract over to Schator Wickline, of Akron, who got it under cover of an Akron firm of which his brother was an official. The Akron firm was not equipped to make the tags and the contract was sublet to a New York firm upon terms by which Senator Wickline stood to make \$12,000 by the deal. When the bill for the New York concern came up for payment State Auditor Donshey refused to pay it unless evidence were submitted to him by Secretary Hildebrant that the bid was let by competitive bidding, as ordered by law. Hildebrant has not, or else cannot, present such evidence, and so the bill is unpaid and thousands of auto mobile owners cannot get their licenses as no more tags are available.

If this contract, or any other contract for public work is let out privately and without bids being submitted, it is a had business. Competition is the surest way to get efficient and honest public service and officials should be eager to avail themselves of it, rather than seek to hand out jobs to personal friends.

DAMAGED GOODS

Colonel Sibley has been hearing about the picture play, "Dam aged Goods", and in his auxiety to ascertain just how the phrase originated, and what it means, he has gone back to the fountain head of authority. He tack up Smollett's translation of Le Suge's "Adventures of Gil Blas, of Santillane", and therein he came across this paragraph:

across this paragraph:

"Thus sal we at table till our masters were pleased to get up from it. This was at midnight; an outrageous, instance of sobriety, in the opinion of my colleagues. To be sure, these noble lards left the taveru so early only to visit a celebrated wanton, lodging in the purlicus of the court, and knoping open house night and day for the rotaries of pleasure. She was a woman from five and thirty to forty, still in the height of her charms, entertaining in her discourse, and so perfect a mistress in the art of pleasure, that she sold the waste and refuse of her heavity at a higher price than the first sample of the unadulterated article. She had always two or three other pieces of DAMAGED GOODS in the house."

However, as Colonel Sibley, observes, the meaning attached to Damaged Goods in the picture play is somewhat different, a little broader as it were, from that advanced by the dashing and observing Gil Blas. He applied it to those of easy virtue, while in the play it includes not only that class but is extended und broadened to include diseases that follow in the wake of these who tread the primrose paths of immorality and fast living.

La Sage wrote his immortal book nearly 200 years ago and if but illustrates the saying that there is nothing new in the world to see the phrase that he coined being used today as the title of one of the most discussed picture plays ever filmed.

Well, well, and look who's here. It's no other than our old friend Lieutenant Governor "Jack" Arnold. And what is "Jack" doing? Why he is making heap hig war incdicine to be used upon me Frank B. Willis at the presidential primaries. For "Jack" was the main cheese at the gathering of dissatisfied republicans at olumbus Thursday when a delegate state was fixed up to oppose the one agreed upon by leaders some time ago. One thing certain is, and that is "Jack" knows who ought to be governor of Ohio. And he could tell with one gress.

His distinguished service as a member of the Ohio Senate for two terms approved him a true representative of the people, and gave him that experience in affairs of legislation that caulos him for the higher sperience in affairs of legislation that equips him for the higher duties of Representative of the people in Congress. CHICAGO WOMEN IN POLITICS

The story of political graft in Chicago, though it is one of a long line, is particularly interesting. Women are involved this time. A woman is the accuser, women are the victims and a woman is the heneficiary. A political assessment is not a new thing, but an assessment on women office-holders to care for a poor relative of the major is a real novelty. The proposition to carry a dummy on the payeroll and divide the salary is not new, but it is rather strange to hear that it has been made by a woman for woman for the figurally profit of women.

hut it is rather strange to hear that it has been made by a woman for the financial profit of women.

There is bound to be absorbing interest in the investigation of these accusations and the disclosure of the truth. We shall all want to know whether Illinois politics, into which women have recently been admitted, is soiling them, instead of being purified by them. One swallow does not make a summer, but it helps to the conclusion that summer is at hand. So, the contamination of some women would not really prove anything as to the whole mass of women. But it might go to show that probity in public affairs will not be assured by the entrance of women into politics.—Columbus Dispatch.
